

Perma-line Marking Systems

Commercial grade line marking systems for use with stencils, line marking equipment or free hand application

What is available?

2 grades
Perma-line High Build
Perma-line

How do they differ?

Perma-line High Build is a top quality, high density, long lasting line marking paint. Excellent in situations of high wear such as car-parks and commercial parking areas. Perma-line is ideal for more general applications where the traffic or movement over the areas is less.
All are lead and xylene free

Where can you use Perma-line Products?

Almost anywhere!

- Car Parks
- Factories
- For road marking
- Highways
- Commercial property
- Sports surfaces
- Playgrounds
- Warehouses
